# 7X0A Controller

## Two-, Four- and Six-Station Controllers

### Programming Features

- Four programs available with up to five start times per program; provides flexible scheduling to meet a variety of watering requirements
- Custom program scheduling using a weekly calendar, odd or even days, or intervals from 1-30 days
- Durations up to 5 hours and 59 minutes in one-minute increments
- Dedicated manual-run by valve or by program
- Twenty pre-set presets regional historical ET-based programs available for 10 climate zones, with 10 for drip irrigation and 10 for spray heads
- Monthly seasonal adjustment that modifies the duration from 5% to 200% in 5% increments
- Irrigation suspension (rain delay) for up to 99 days; resumes irrigation automatically
- Dedicated On/Off button allows the user to turn off the controller system or an individual program and reactivate it as desired
- Events off mode with daily and monthly programming restriction option allows controller to bypass irrigation schedules
- Non-volatile memory holds all programs indefinitely without batteries

3-year warranty

### How to specify

Model	Description
7X0A Series	
720A-000	Two stations
740A-000	Four stations
760A-000	Six stations
Solenoids	
S-305DC	11/16"-12" UN thread
305DC-075	on 3/4" in-line valve
305DC-100	on 1" in-line valve with flow control
305DC-150	on 1/2" in-line valve without flow control
305DC-200	on 2" in-line valve
