

# RETRO REGULATOR™

SAVE WATER. SAVE MONEY.

A SIMPLE, LOW-COST SOLUTION TO REDUCE WATER USAGE

30/40 PSI SETTINGS IN ONE  
DEVICE WITH CHECK VALVE

Patent Pending

UNSCREW THE TOP OF  
YOUR SPRINKLER, INSTALL  
RETRO REGULATOR™...AND SAVE!

REDUCES YOUR WATERING BILL  
AN AVERAGE OF 30%-50% PER MONTH

- SAVE WATER
- SAVE MONEY
- ZERO PLASTIC WASTE
- COMPATIBLE WITH MOST SPRAY BODIES
- INSTALLS IN MINUTES, NO TOOLS REQUIRED

Part Number: HW-1800 | Retro Regulator  
25/bag | 250 per display box | 1000 master case

H2Owize™

# MONTHLY WATER AND MONEY SAVINGS

**WATER SAVED** on one zone with 10 sprinklers on a 10-minute cycle with 15' (4.6m) spray nozzles and 70 psi inlet pressure.

**0.8 GPM**  
3.1 Litres/Min

**80 Gal/Cycle**  
310 Litres/Cycle

**800 Gal/Month**  
37,200 Litres/Month

**MONEY SAVED** on outdoor irrigation based on a \$180 average monthly total household water bill. 60% of your total is for outdoor irrigation.\*

**\$108** Avg. outdoor irrigation bill

**\$75** After installing Retro Regulator™

**\$32 Savings Per Month**  
Appx. 30% reduction on your outdoor irrigation bill

*\*Savings and percentages may differ +/- based on your water rates and input pressure. 60% is a national average.*

## RETRO REGULATOR™

### FEATURE BENEFITS:

- **SAVE WATER.** Pressure regulation reduces the amount of water at the nozzle eliminating misting and overspray.
- **SAVE MONEY.** Water costs are increasing. Retro-Regulator™ is easy to install and uses the existing spray body already in the ground.
- **ZERO PLASTIC WASTE.** Since you are using the existing non-PRS spray body and internals there is no need to throw out perfectly good parts.
- **COMPATIBLE.** New design fits in the following manufactures spray bodies; Rain Bird®, Hunter®, Weathermatic®, Orbit®, HydroRain®, K-Rain®, Irritrol®. 4", 6" and 12" models.
- **UPGRADE** your existing non pressure regulated heads to meet current efficiency standards in minutes.
- **UNIQUE** patented design allows you to choose between 30 or 40 psi settings with a check valve in a single low-cost device.
- **Instantly turn an existing spray body into a drip irrigation outlet when set at 30psi. Replace the spray nozzle with our Nozzle Adapter (HW-1848) and install any low-flow bubbler or other water-saving device.**

Part Number: **HW-1800 | Retro Regulator**  
25/bag | 250 per display box | 1000 master case

Fast, efficient and cost-effective Retro-Regulator offers a solution for the millions of spray heads installed without pressure regulation or check valves. Set at either 30 or 40 psi and with a built-in Check Valve to prevent low head leakage. Installing a Retro-Regulator instantly upgrades your sprinkler to a high-efficiency water-savings device in minutes.

### ADDITIONAL PRODUCTS:

**HW-1847 | Nozzle Cap**

**HW-1848 | Nozzle Adapter** - Convert any nozzle to ½" NPT (RB PA-80)

**HW-1849 | Spray-to-Drip Conversion Kit**  
Convert any spray head to a 30psi regulated Drip Device w/filter, ½" fittings.

**HW-1850 | Pressure Test Kit**

HW-1847

HW-1848

HW-1850
