

Galcon Easy Program Flip Open LCD Timer (TGNEZ)

Open Position (Front View)

Closed Position (Top View)

This Galcon Timer offers all the features of the old TDIGDIAL (Galcon manufactures for DIG) but with several improvements that include a digital display, more compact, water-resistant construction, a sturdier neck, a front panel cover to protect against UV damage, a watertight battery compartment, a low battery warning, and a power-down feature to extend the life of the required 9 Volt battery (not included). The inlet and outlet are standard hose thread. Start times every hour up to once a week. 10 duration presets. Flow rates of 0.5-5.2 gallons per minute.
