

Watering Patterns of Various Sprayers and Sprinklers

Up-Spray

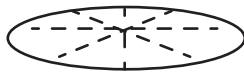

Tornado Misters, *SuperNets, Wing Sprinklers, Spectrum Sprayers, 1/4 & 1/2 Circle Micro Jets and Mini-Wobblers

Down-Spray

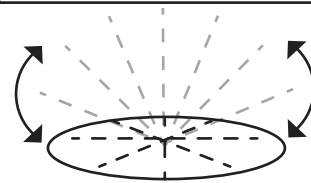

Downspray Sprinklers, Spot Spitters, *SuperNets, and Cool Breeze Misters

Flat Spray

Ein Dor Sprinklers, Bubblers, Mini-Jets, Full Circle Micro Jets, and Shrubblers

Adjustable *Arc

K-Rain Rotators, MP Rotators, Hunter Sprinklers, Orbit Sprinklers, and Adjustable Gear Drive Sprinklers

*Arc represents the degrees of a circle covered (e.g. 90°) though these sprinklers also allow adjustment of the throw (distance).

*When trees are small the SuperNet Sprinkler is installed with the blue deflector, which delivers a compact, down-spray pattern. When the trees are mature the blue deflector is replaced with the purple deflector, which delivers an up-spray pattern.
